Putting the pieces together
to respond effectively to migration challenges

ICMPD ENIGMMA Project Team

Conference Background

The International Conference “Dialogue on Migrants’ Integration – Challenges, Benefits and Good Practices”, taking place in Tbilisi, Georgia on 8 and 9 February 2018, is a joint initiative of the Secretariat of the State Commission on Migration Issues (SCMI) and the International Centre for Migration Policy Development (ICMPD), organised through the EU-funded ENIGMMA 2 (“Sustaining Migration Management in Georgia”) project implemented in Georgia by ICMPD.

The increasing movement of people to and between neighbouring and/ or more distant countries and the migration-related challenges of the past decade have revealed the need for integration practices for migrants in destination countries. Since integration is a complex concept implying social cohesion, togetherness, mutual acceptance of certain norms, values and traditions, governance, and social access, to name but a few elements, it needs to be approached from different perspectives, with both the practical and theoretical frameworks being taken into account. In order to effectively develop a comprehensive system for migrants’ integration, international experience and exchange also plays a very important role.

The Conference aims to bring together local and international practitioners, policymakers, scholars and researchers to discuss best practices and lessons learned in regard to the integration of migrants within the Member States of the European Union (EU MS) (and in certain Eastern Partnership (EaP) countries) and the existing challenges, needs and opportunities brought by immigration and sustainable ways in which to deal with them, including possible policy recommendations. These topics will be discussed in a comparative manner, by analysing and assessing the practical samples and applying an academic viewpoint, and vice versa.

This two-day conference is envisaged as a great opportunity for Georgian policymakers, practitioners and international experts to come together so as to share their experiences, knowledge and research findings, and promote their understanding of the integration of migrants from the local, regional and broader inter-regional perspective. In the long term, the purpose and ultimate objective of the Conference is to further develop and foster critical exchange on migration and integration, as well as to support evidence-based policy making in this field by providing guidelines on successful integration measures.

The Conference will be held in English (with simultaneous interpretation into Georgian) and takes place over the course of two days.

On Day One, a keynote lecture will be given by Prof. Dr. Christian Joppke, University of Bern, titled The European Approach to Immigrant Integration. On Day Two, the keynote lecture General Integration Framework: Risks, Challenges and Good Practices will be given by Dr. Ben Gidley, University of London. Further, international experts will lead and moderate the following panels:

- Structural integration – access to the labour market, education, health care
- Social and cultural integration – a path to belonging
- Measuring integration – immigrant integration indicators versus public attitudes

The dialogue partners will include policymakers and practitioners from state agencies, policy development institutions, think-tanks, research institutions and NGOs from both EU member states and Georgia.

The Conference takes place at the National Archives of Georgia and the Radisson Blu Iveria Hotel in Tbilisi.

Information on the State Commission on Migration Issues of Georgia

The State Commission on Migration Issues (SCMI) was set up on 13 October 2010 as a governmental consultative body to discuss and take decisions on various important issues related to migration management. The Commission comprising 12 governmental entities¹ is chaired by the Ministry of Justice.

During its lifespan, the Commission has become a sole platform for discussing and defining the state migration policy, an effective instrument for co-ordinating competences falling under different entities, and a key body in fulfilment and further implementation of migration-related reforms under the EU-Georgia Visa Liberalisation Action Plan. To this end, the SCMI is provided with analytical and administrative support by its Secretariat, hosted by the Public Service Development Agency under the Ministry of Justice. The main aims of the Secretariat are to provide the Commission with analytical support, as well as monitor and execute the tasks defined in the Migration Strategy and its Action Plan.

So as to further activate the Commission's work in different directions, thematic working groups have been set up within the SCMI in order to work on Reintegration Issues, Migration Risk Analysis, Migration Strategy, Reduction of Statelessness, the Unified Migration Analytical System, Migration & Development, and Aliens Integration.

In 2013, international and non-governmental organisations working in the field were granted a consultative status within the Commission

1 The Ministry of Justice; the Ministry of Internal Affairs; the Ministry of Education and Science; the Office of the State Minister on European and Euro-Atlantic Integration; the Ministry of Economy and Sustainable Development; the Ministry of Internally Displaced Persons from the Occupied Territories, Accommodation and Refugees; the Ministry of Infrastructure and Regional Development; the Ministry of Foreign Affairs; the National Statistics Office; the Ministry of Finance; the State Security Service; the Ministry of Labour, Health and Social Affairs.

in order to provide additional expertise and develop a format for interactive cooperation. Thanks to this collaboration with the Secretariat, significant progress has been achieved in eradicating thematic overlaps and ensuring targeted use of existing resources.

More information on the SCMI can be found at <http://migration.commission.ge/> and <http://sda.gov.ge/>.

Information on the ENIGMMA 2 Project

The “Sustaining Migration Management in Georgia” (ENIGMMA 2) project is funded by the EU-Georgia Financing Agreement, signed in May 2017 within the European Neighbourhood Instrument (ENI) 2016 Technical Cooperation Facility II Programme. The project broadly builds on the results of previous activities of the International Centre for Migration Policy Development (ICMPD) in Georgia, including the recently implemented EU-funded “Enhancing Georgia’s Migration Management” (ENIGMMA) project which supported the Government of Georgia in implementation of migration-related areas of the Visa Dialogue with the European Union. The ENIGMMA 2 project runs from September 2017 through November 2020. It will be implemented by ICMPD and the State Commission on Migration Issues of Georgia.

The overall objective of ENIGMMA 2 is to contribute to the sustainable enhancement of mobility and people-to-people contacts between the EU and Georgia. The proposed action seeks to achieve this objective by addressing identified and potential migration-related risks related to visa liberalisation in Georgia and the EU MS, whilst at the same time maximising the visa liberalisation benefits in the areas covered by the project. The project will continue to provide support to the Government of Georgia in implementation, as well as in terms of monitoring and evaluating the impact of the Migration Strategy.

As established by the project programme, ICMPD, in close cooperation with the SCMI and its Secretariat, will implement a set of activities designed to facilitate the efforts of the state institutions involved in migration management in Georgia, policy development, capacity building and monitoring, impact assessment mechanisms for regular policy review, etc. The project consists of the following components:

COMPONENT 1 offers support in development of Policy Recommendations. Therefore, it will mainly address implementation and

evaluation of the Migration Strategy by: analysing the impact of the visa liberalisation on mobility in Georgia; monitoring the migration coverage in the Georgian media; providing back-stopping support in analysis and evaluation of the impact of the Migration Strategy implementation on migration management in Georgia; and carrying out demand driven analytical and research activities for further policy development.

COMPONENT 2 focuses on Joint Response Measures derived from the policy recommendations under Component 1. In this way, the project team together with the Georgian counterparts will implement measures to avoid and/or minimise negative and foster positive impact of the visa liberalisation in Georgia by: providing further support to migration risks prevention; undertaking further targeted awareness raising on migration and mobility; carrying out activities aimed at improving the situation of Georgian migrants abroad; supporting organised and informed student mobility; and designing demand driven activities on improvement of collection and analysis of data on visa liberalisation implementation.

COMPONENT 3 provides targeted Capacity Building Actions directed towards fostering migration understanding, expertise and education; providing media education on migration; and deepening the understanding of both the EU migration acquis amongst the SCMI member institutions (as well as practical implementation of selected Migration Strategy areas) and Personal Data Protection requirements in the field of migration.

COMPONENT 4 fosters Exchange and Cooperation between Georgia and EU Experts by: raising institutional awareness in Georgia on the functioning of the EU institutions; implementing joint measures for further approximation of the Georgian legislation with the EU migration acquis by the EU MS and Georgian experts; establishing close contacts between the SCMI and the EU institutions in the area of migration and asylum; and carrying out targeted EU MS expert exchange visits to Georgia.

Information on ICMPD

The International Centre for Migration Policy Development (ICMPD) was founded in 1993, upon the initiative of Austria and Switzerland. The organisation was created to serve as a support mechanism for informal consultations, and to provide expertise and efficient services in the newly emerging landscape of multilateral cooperation on migration and asylum issues.

ICMPD is an international organisation with **15 Member States** (Austria, Bosnia and Herzegovina, Bulgaria, Croatia, the Czech Republic, Hungary, the Former Yugoslav Republic of Macedonia, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Sweden and Switzerland), more than 200 staff members, a mission in Brussels, and regional offices and representatives throughout Europe (including Georgia), North Africa, the Middle East and Latin America. ICMPD holds UN observer status.

ICMPD's purpose is to promote innovative, comprehensive and sustainable migration policies and to function as a service exchange mechanism for governments and organisations. ICMPD strives for comprehensive, sustainable and future-oriented migration governance; and does so based on solid evidence and in partnership with all relevant stakeholders at national, regional and international levels.

ICMPD is a European organisation dealing with the global phenomenon of migration. Europe is more than a geographic location – it embraces principles and values that guide ICMPD's work. European migration governance is built upon strong rule of law principles and the effective protection of human and fundamental rights with a longstanding humanitarian tradition. It stands for multilateralism and a partnership approach.

In September 2013, the Government of Georgia and ICMPD signed an agreement on cooperation which was ratified by the Georgian Parliament in November 2013. This agreement allows continued further strengthening and development of the cooperation between Georgia and ICMPD.
